BRD_01	The user must be able to navigate to different product categories from the main menu.	Functional	Y
BRD_02	The system must allow users to view product details including price, description, and images.	Functional	Y
BRD_03	The user must be able to filter products based on price range.	Functional	Y
BRD_04	The system must allow sorting of products by price, name, and position.	Functional	Y
BRD_05	The user must be able to add a product to the shopping cart from the product page.	Functional	Y
BRD_06	The system must display the number of items in the shopping cart icon	Functional	Y
BRD_07	The user must be able to update the quantity of items in the shopping cart.	Functional	Y
BRD_08	The user must be able to remove items from the shopping cart.	Functional	Y
BRD_09	The system must display the subtotal amount in the shopping cart page.	Functional	Y
BRD_10	The user must be able to proceed to checkout from the shopping cart page.	Functional	Y
BRD_11	The system must allow guest checkout without mandatory registration	Functional	Y
BRD_12	The user must be able to register a new account with valid email and password.	Functional	Y
BRD_13	The system must validate mandatory fields during user registration.	Functional	Y
BRD_14	The registered user must be able to log in using valid credentials.	Functional	Y
BRD_15	The system must display an error message for invalid login credentials.	Functional	Y
BRD_16	The user must be able to add products to the wishlist.	Functional	Y
BRD_17	The system must allow users to move products from wishlist to shopping cart.	Functional	Y
BRD_18	The user must be able to search for products using the search bar.	Functional	Y
BRD_19	The system must display relevant search results based on the keyword entered.	Functional	Y
BRD_20	The user must be able to view related products on the product detail page.	Functional	Y
BRD_21	The system must display customer reviews and ratings for products.	Functional	Y
BRD_22	The registered user must be able to submit a review for a purchased product.	Functional	Y
BRD_23	The system must display order summary before final order confirmation.	Functional	Y
BRD_24	The system must allow users to select a shipping method during checkout.	Functional	Y
BRD_25	The system must allow users to select a payment method during checkout.	Functional	Y
BRD_26	The system must display order confirmation after successful order placement.	Functional	Y
BRD_27	The registered user must be able to view order history in their account section.	Functional	Y
BRD_28	The system must allow users to update their account information.	Functional	Y
BRD_29	The system must allow users to subscribe to the newsletter using email.	Functional	Y
BRD_30	The system must display contact information in the footer section.	Functional	Y

Test Scenario ID	Module Name	Scenario Description	Priority	Type of Scenario	Sprint
TS_01.BRD_01	Category Navigation	Verify the user can navigate to different product categories from the main menu.	High	Positive	1
TS_02.BRD_02	Product Page	Verify the product detail page displays product name, description, price, and images.	High	Positive	1
TS_03.BRD_03	Product Filter	Verify the user can filter products using price range.	Medium	Positive	1
TS_04.BRD_03	Product Sorting	Verify the user can sort products by price, name, and position.	Medium	Positive	1
TS_05.BRD_03	Shopping Cart	Verify the user can add a product to the shopping cart from the product page.	High	Positive	2
TS_06.BRD_04	Shopping Cart	Verify the shopping cart icon updates with the number of items added.	High	Positive	2
TS_07.BRD_05	Shopping Cart	Verify the user can update the quantity of products in the cart.	High	Positive	2

Test Scenario ID	Module Name	Scenario Description	Priority	Type of Scenario	Sprint
TS_01.BRD_01	Category Navigation	Verify the user can navigate to different product categories from the main menu.	High	Positive	1
TS_02.BRD_02	Product Page	Verify the product detail page displays product name, description, price, and images.	High	Positive	1
TS_03.BRD_03	Product Filter	Verify the user can filter products using price range.	Medium	Positive	1
TS_04.BRD_03	Product Sorting	Verify the user can sort products by price, name, and position.	Medium	Positive	1
TS_05.BRD_03	Shopping Cart	Verify the user can add a product to the shopping cart from the product page.	High	Positive	2
TS_06.BRD_04	Shopping Cart	Verify the shopping cart icon updates with the number of items added.	High	Positive	2
TS_07.BRD_05	Shopping Cart	Verify the user can update the quantity of products in the cart.	High	Positive	2
TS_08.BRD_05	Shopping Cart	Verify the user can remove products from the cart.	High	Positive	2
TS_09.BRD_06	Shopping Cart	Verify the cart page displays the subtotal of selected products.	High	Positive	3
TS_10.BRD_07	Checkout	Verify the user can proceed to checkout from the shopping cart page.	High	Positive	3
TS_11.BRD_08	Checkout	Verify the system allows guest users to proceed with checkout.	Medium	Positive	3
TS_12.BRD_09	User Registration	Verify the user can register with valid email and password.	High	Positive	4
TS_13.BRD_10	User Registration	Verify validation messages appear when mandatory fields are empty during registration	High	Negative	4
TS_14.BRD_11	Login	Verify the registered user can login using valid credentials.	High	Positive	4
TS_15.BRD_12	Login	Verify the system displays an error for invalid login credentials.	High	Negative	5
TS_16.BRD_15	Wishlist	Verify the user can add products to the wishlist.	Medium	Positive	5
TS_17.BRD_16	Wishlist	Verify the user can move items from wishlist to shopping cart.	Medium	Positive	5
TS_18.BRD_17	Search	Verify the user can search for products using keywords in the search bar.	High	Positive	5
TS_19.BRD_19	Search	Verify the system displays relevant search results based on the keyword entered.	High	Positive	5
TS_20.BRD_19	Product Page	Verify the related products section is displayed on the product page.	Medium	Positive	6
TS_21.BRD_19	Product Review	Verify the system displays customer reviews and ratings for products.	Medium	Positive	6
TS_22.BRD_21	Product Review	Verify a registered user can submit a product review.	Medium	Positive	6
TS_23.BRD_23	Checkout	Verify the order summary page displays product details before confirmation.	High	Positive	6
TS_24.BRD_25	Checkout	Verify the user can select a shipping method during checkout.	High	Positive	6
TS_25.BRD_26	Checkout	Verify the user can select a payment method during checkout.	High	Positive	7
TS_26.BRD_27	Order Confirmation	Verify the system displays an order confirmation message after successful order placement.	High	Positive	7
TS_27.BRD_28	User Account	Verify the user can view order history in the account section.	Medium	Positive	7
TS_28.BRD_29	User Account	Verify the user can update personal information in the account section.	Medium	Positive	8
TS_29.BRD_30	Newsletter	Verify the user can subscribe to the newsletter using email.	Low	Positive	8
TS_30.BRD_30	Footer	Verify the footer section displays contact information.	Low	Positive	8

Test Case ID	Module Name	Pre-requisite	Test Case Name	Test Data	Test Steps	Expected Results	Actual Results	Status
TC_07.TS_01.BRD_01	Homepage	URL, Desktop Browser	Validate user can successfully land on the Homepage by entering the valid application URL	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1. Launch the Chrome browser. 2.Enter the URL in the address bar and press Enter. 3.Verify the main logo, search bar, and main menu are visible 4.Verify no horizontal scrollbar is present.	1. The Chrome browser should launch successfully. 2.The NopCommerce Homepage should load completely and display all elements correctly. 3.All key components (logo, search, menu) should be visible and aligned correctly. 4.The page layout should fit the screen width without requiring horizontal scrolling.	1. Homepage loaded. 2. Footer was visible. 3. Sitemaps page loaded successfully. 4. Sitemaps content was visible 5. All checked links loaded successfully.	Pass
TC_08.TS_01.BRD_12	Registration	URL, Desktop Browser	Validate error messages are displayed for mismatched passwords during desktop registration.	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and navigate to the Registration page. 2.Fill all mandatory fields with valid data. 3.Enter a mismatched password and confirm password. 4.Click the 'Register' button. 5.Verify the specific password mismatch error message.	1. Registration page should load. 2. Fields should populate. 3. Data should be entered. 4. Submission should be attempted. 5. A specific error message, like "The password and confirmation password do not match." should be displayed next to the password fields.	1. PDP loaded. 2. Main image switched to the second thumbnail. 3. Image switched successfully. 4. Zoom functionality activated 5. Zoom was smooth and detailed.	Pass
TC_09.TS_01.BRD_30	Footer	URL, Desktop Browser	Validate that all Quick Links in the footer section are functional and not broken.	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and navigate to the homepage. 2.Scroll to the footer section. 3.Click the 'Sitemaps' link. 4.Verify the Sitemaps page loads. 5.Go back and repeat for 'Shipping & Returns' and 'Privacy Notice'.	1. Homepage should load. 2. Footer should be visible. 3. Sitemaps page should load successfully without 404 error. 4. Sitemaps content should be visible. 5. All subsequent links should load successfully.	1. Shopping Cart page loaded with both items. 2. Checkbox was marked. 3. Cart update processed. 4. Item 1 was removed, and the Sub-Total was correctly updated.	Pass
TC_10.TS_01.BRD_05	Product Detail Page (PDP)	URL, Desktop Browser, Valid Product	Validate the product image gallery functions correctly on the PDP	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and navigate to a Product Detail Page with multiple images. 2.Click on the second thumbnail image. 3.Verify the main image switches. 4.Hover the mouse over the main image. 5.Verify the zoom functionality activates.	1. PDP should load. 2.The main image should visually switch to the second product image. 3. Image should switch successfully. 4. A magnified section of the image should appear. 5. Zoom functionality should be smooth and show higher-resolution details.	1. Billing Address page loaded. 2. Data was entered. 3. Navigation proceeded to Shipping Method. 4. Navigation returned to Billing Address. 5. All entered data persisted in the fields.	Pass
TC_11.TS_01.BRD_08	Shopping Cart	URL, Desktop Browser, Items in Cart	Validate removal of a single item from the Shopping Cart works correctly on desktop.	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and navigate to the Shopping Cart page. 2.Check the "Remove" checkbox next to item 1 3.Click the "Update Shopping Cart" button. 4.Verify item 1 is removed and the cart totals are updated.	1. Shopping Cart page should load showing both items. 2. Checkbox should be marked. 3. Cart update should process. 4. Item 1 should disappear from the list, and the Sub-Total should reflect the removal of item 1's price.	1. Homepage loaded. 2. Footer was visible. 3. Sitemaps page loaded successfully. 4. Sitemaps content was visible 5. All checked links loaded successfully.	Pass
TC_12.TS_01.BRD_20	Checkout	URL, Desktop Browser, Valid Address	Validate all fields in the Billing Address step retain data upon clicking 'Continue'	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and proceed to the Billing Address step during checkout. 2.Enter valid data into all mandatory fields. 3.Click the 'Continue' button to proceed to the Shipping Method. 4.Click 'Back' to return to the Billing Address step. 5.Verify all previously entered data is still present.	1.Billing Address page should load. 2.Data should be entered into all fields. 3. System should navigate to the Shipping Method step. 4. System should return to the Billing Address step. 5. All entered text/selected options should persist in their respective fields.	1. PDP loaded. 2. Main image switched to the second thumbnail. 3. Image switched successfully. 4. Zoom functionality activated 5. Zoom was smooth and detailed.	Pass
TC_07.TS_01.BRD_01	Homepage	URL, Desktop Browser	Validate user can successfully land on the Homepage by entering the valid application URL	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch the Chrome browser. 2.Enter the URL in the address bar and press Enter. 3.Verify the main logo, search bar, and main menu are visible 4.Verify no horizontal scrollbar is present.	1. The Chrome browser should launch successfully. 2. The NopCommerce Homepage should load completely and display all elements correctly. 3. All key components (logo, search, menu) should be visible and aligned correctly. 4. The page layout should fit the screen width without requiring horizontal scrolling.	1. Shopping Cart page loaded with both items. 2. Checkbox was marked. 3. Cart update processed. 4. Item 1 was removed, and the Sub-Total was correctly updated.	Pass
TC_08.TS_01.BRD_12	Registration	URL, Desktop Browser	Validate error messages are displayed for mismatched passwords during desktop registration.	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and navigate to the Registration page. 2.Fill all mandatory fields with valid data. 3.Enter a mismatched password and confirm password. 4.Click the 'Register' button. 5.Verify the specific password mismatch error message.	1. Registration page should load. 2. Fields should populate. 3. Data should be entered. 4. Submission should be attempted. 5. A specific error message, like "The password and confirmation password do not match." should be displayed next to the password fields.	1. Billing Address page loaded. 2. Data was entered. 3. Navigation proceeded to Shipping Method. 4. Navigation returned to Billing Address. 5. All entered data persisted in the fields.	Pass
TC_09.TS_01.BRD_30	Footer	URL, Desktop Browser	Validate that all Quick Links in the footer section are functional and not broken.	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and navigate to the homepage. 2.Scroll to the footer section. 3.Click the 'Sitemaps' link. 4.Verify the Sitemaps page loads. 5.Go back and repeat for 'Shipping & Returns' and 'Privacy Notice'.	1. Homepage should load. 2. Footer should be visible. 3. Sitemaps page should load successfully without 404 error. 4. Sitemaps content should be visible. 5. All subsequent links should load successfully.	1. Homepage loaded. 2. Footer was visible. 3. Sitemaps page loaded successfully. 4. Sitemaps content was visible 5. All checked links loaded successfully.	Pass
TC_10.TS_01.BRD_05	Product Detail Page (PDP)	URL, Desktop Browser, Valid Product	Validate the product image gallery functions correctly on the PDP	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and navigate to a Product Detail Page with multiple images. 2.Click on the second thumbnail image. 3.Verify the main image switches. 4.Hover the mouse over the main image. 5.Verify the zoom functionality activates.	1. PDP should load. 2. The main image should visually switch to the second product image. 3. Image should switch successfully. 4. A magnified section of the image should appear. 5. Zoom functionality should be smooth and show higher-resolution details.	1. PDP loaded. 2. Main image switched to the second thumbnail. 3. Image switched successfully. 4. Zoom functionality activated. 5. Zoom was smooth and detailed.	Pass
TC_11.TS_01.BRD_08	Shopping Cart	URL, Desktop Browser, Items in Cart	Validate removal of a single item from the Shopping Cart works correctly on desktop.	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome, OS:	1.Launch Chrome and navigate to the Shopping Cart page. 2.Check the "Remove" checkbox next to item 1 3.Click the "Update Shopping Cart" button. 4.Verify item 1 is removed and the cart totals are updated.	1. Shopping Cart page should load showing both items. 2. Checkbox should be marked. 3. Cart update should process. 4.Item 1 should disappear from the list, and the Sub-Total should reflect the removal of item 1's price.	1. Shopping Cart page loaded with both items. 2. Checkbox was marked. 3. Cart update processed. 4. Item 1 was removed, and the Sub-Total was correctly updated.	Pass
TC_12.TS_01.BRD_20	Checkout	URL, Desktop Browser, Valid Address	Validate all fields in the Billing Address step retain data upon clicking 'Continue'	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and proceed to the Billing Address step during checkout. 2.Enter valid data into all mandatory fields. 3.Click the 'Continue' button to proceed to the Shipping Method. 4.Click 'Back' to return to the Billing Address step. 5.Verify all previously entered data is still present.	1.Billing Address page should load. 2.Data should be entered into all fields. 3. System should navigate to the Shipping Method step. 4. System should return to the Billing Address step. 5. All entered text/selected options should persist in their respective fields.	1.Billing Address page loaded. 2. Data was entered. 3. Navigation proceeded to Shipping Method. 4. Navigation returned to Billing Address. 5. All entered data persisted in the fields.	Pass
TC_07.TS_01.BRD_01	Homepage	URL, Desktop Browser	Validate user can successfully land on the Homepage by entering the valid application URL	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch the Chrome browser. 2.Enter the URL in the address bar and press Enter. 3.Verify the main logo, search bar, and main menu are visible 4.Verify no horizontal scrollbar is present.	1. The Chrome browser should launch successfully. 2. The NopCommerce Homepage should load completely and display all elements correctly. 3. All key components should be visible and aligned correctly. 4. The page layout should fit the screen width without requiring horizontal scrolling.	1. Homepage loaded. 2. Footer was visible. 3. Sitemaps page loaded successfully. 4. Sitemaps content was visible. 5. All checked links loaded successfully.	Pass
TC_08.TS_01.BRD_12	Registration	URL, Desktop Browser	Validate error messages are displayed for mismatched passwords during desktop registration.	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and navigate to the Registration page. 2.Fill all mandatory fields with valid data. 3.Enter a mismatched password and confirm password. 4.Click the 'Register' button. 5.Verify the specific password mismatch error message.	1. Registration page should load. 2. Fields should populate. 3. Data should be entered. 4. Submission should be attempted. 5. A specific error message, like "The password and confirmation password do not match." should be displayed next to the password fields.	1. PDP loaded. 2. Main image switched to the second thumbnail. 3. Image switched successfully. 4. Zoom functionality activated 5. Zoom was smooth and detailed.	Pass
TC_09.TS_01.BRD_30	Footer	URL, Desktop Browser	Validate that all Quick Links in the footer section are functional and not broken.	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome,	1.Launch Chrome and navigate to the homepage. 2.Scroll to the footer section. 3.Click the 'Sitemaps' link. 4.Verify the Sitemaps page loads. 5.Go back and repeat for 'Shipping & Returns' and 'Privacy Notice'.	1. Homepage should load. 2. Footer should be visible. 3. Sitemaps page should load successfully without 404 error. 4. Sitemaps content should be visible. 5. All subsequent links should load successfully.	1. Shopping Cart page loaded with both items. 2. Checkbox was marked. 3. Cart update processed. 4. Item 1 was removed, and the Sub-Total was correctly updated.	Pass

| TC_10.TS_01.BRD_05 | Product Detail Page (PDP) | URL, Desktop Browser, Valid Product | Validate the product image gallery functions correctly on the PDP | URL: https://demo.nopcommerce.com, Desktop Browser: Chrome, | 1.Launch Chrome and navigate to a Product Detail Page with multiple images.
2.Click on the second thumbnail image.
3.Verify the main image switches.
4.Hover the mouse over the main image.
5.Verify the zoom functionality activates. | 1. PDP should load.
2. The main image should visually switch to the second product image.
3. Image should switch successfully.
4. A magnified section of the image should appear.
5. Zoom functionality should be smooth and show higher-resolution details. | 1. Billing Address page loaded.
2. Data was entered.
3. Navigation proceeded to Shipping Method.
4. Navigation returned to Billing Address. 5. All entered data | Pass |

TC_10.TS_01.BRD_05	Product Detail Page (PDP)	URL, Desktop Browser, Valid Product	Validate the product image gallery functions correctly on the PDP	URL: https://demo.nopcommerce.com, Desktop Browser: Chrome.	1.Launch Chrome and navigate to a Product Detail Page with multiple images. 2.Click on the second thumbnail image. 3.Verify the main image switches. 4.Hover the mouse over the main image. 5.Verify the zoom functionality activates.	1.
